

# LEARN TO RIDE

## A HARLEY-DAVIDSON MOTORCYCLE

### FACTS:

The Harley-Davidson Riding Academy New Rider Course is built on the proven curriculum from NHTS Standards with additional elements from MORE and Harley-Davidson. You begin by learning how to start the motorcycle. By the end of it all, you're confidently handling true Milwaukee steel.

Our coaches are certified by Motorcycle Ohio Rider Enrichment via the National Highway Traffic Safety Standards. They've also been specifically trained by the Harley-Davidson Motor Company to deliver our unique, interactive New Rider Course. You can learn best when you learn from the best.

Get ready to ride. You learn the basics in the classroom. But you spend most of the time practicing on the controlled range, developing the maneuvers and skills that make you ready for the road. It doesn't feel like school. It feels like freedom.

You will learn on an actual Harley-Davidson motorcycle.

When you successfully complete the Harley-Davidson New Rider Course, you will receive a completion card. The State of Ohio will waive the riding test needed to obtain a motorcycle endorsement, and some insurance companies may offer discounts.

This is just the beginning. A license to ride is the start of a life-changing adventure. It's also instant membership in the largest extended family in the world. Your Harley-Davidson dealership is the center of it all. The ride that starts here can go as far as you want to take it

Yes. You can ride a Harley-Davidson motorcycle. It's an attainable dream. There aren't any rules about who can get on a Harley-Davidson motorcycle. You can learn the skills, build the confidence, and discover the feeling that all riders know but can't really put into words. The road is wide open.

\$195.00 with motorcycle purchase

\$195.00 Local or National HOG Member

\$195.00 Military or Veteran

Are there any pre-qualifications for the class?

Balance. We also suggest you stop in and sit on the bikes or utilize the "Jump Start" if the dealership is equipped with one. This will allow you the opportunity to start up a motorcycle and run through the gears (just one if that's all you want – or more) while the motorcycle is stationary. Don't worry! Even if you don't know what you are doing....the motorcycle won't go anywhere. That's the point. Practice and have fun. This equipment is available for you! Once you're riding and out on the street, you won't need it anymore.
